# WE'RE HIRING!

Software Developer Wanted.

Blue Marble Geographics is looking for an individual who is familiar with low level C++ software development and C++ development using Visual Studio. This position will be dedicated to the implementation of our next generation, industry standard GIS toolset. A successful software engineering candidate will have the ability to interact effectively with others and work as a team member as well as independently.

ABOUT BLUE MARBLE GEOGRAPHICS

Blue Marble's mission is to offer affordable yet powerful GIS products to customers who are making or using maps, and/or who are developing their own applications.

The company is as committed to developing excellent GIS software as it is to providing its employees opportunities to make a difference. Teamwork and customer-centered development things the company takes pride in.

Blue Marble strives to be a comfortable and friendly workplace that fosters collaboration. Creating a positive environment is extremely important, no matter how demanding the development schedule is.

JOB REQUIREMENTS

- Bachelor's degree preferably in electrical/computer engineering, computer science, or mathematics

- Familiarity with the software development process.

- Primary development in C++, with knowledge of Microsoft Visual, .NET framework, and Microsoft Foundation Classes (MFC) preferred

- Additional skills with Qt, java, or C++ development on Unix environments are appreciated

APPLY TODAY

To be considered, applicants must e-mail a resume and cover letter to hr@bluemarblegeo.com
